TUESDAY EVENING, JUNE 17.

COMPLETION OF A HUGE WORK .- The railroad tunnel through the Cojak on the line from Quetta to Candahar has been completed. The Cojak Pass is 7 500 feet above the level of the sea, and about two thou-sand feet above the level of surrounding country. The tunnel pierces the range at right angles, and its course is, therefore, due east and west, and it enters the hill about one thousand feet below the crest of the pass. The length of the tunnel is 12,600 feet, or two and a half miles approximately. and it will carry a double line of rails. There are two main shafes, one 318 feetland the other 200 feet deep, which were suck in order to facilitate the construction of the tunnel. The chief obstacle to progress arose from the flooding of the tunnel at more than one point. A large spring was cut, and the water flooded the shaft on the Candahar side to the dopth of 180 feet. It took ten weeks to pump out the water, and in the western heading as much as 500 gallone a minute were constantly rushing out of the west mouth Is order to overcome this difficulty a side cutting was made.

HIS TERFH COULD NOT STAND IT .- The Delmo brothers, trapeze performers, met with a rainful and parhaps fatal accident during their exhibition at the Gem Theatre, El Paso, Texas, Saturday night. Both of the gymnasts, George and William, were on a trapeze 25 feet above the stage. George a trapeze 25 feet above the stage. Conge had his legs hooked over the bar with his head hanging down. In his mouth he had a leather strap which was fastened to a belt around his brother's weist. William was being spun around like a top by a movement of George's head, and at the same time the trapeze was made to swieg with great velocity, when one of the belt rings caught, wrenched several teeth from George's mouth and William feil to the floor. After being taken home he recovered consciousness, but has not since his fall been able to walk. The physicians, who have made a careful exam
